

Satellite radio, which I pay a monthly fee to subscribe to because of it's variety and quality, is a benefit to me not just for entertainment purposes, but more importantly, for the traffic and weather services it provides. I pay for these services and feel it is wrong for the National Broadcaster's Association to dictate what I am able to hear or not hear as a subscriber. I respectfully urge the FCC to reject the NAB's petition 04-160.
